# Fairness for Families

“I will take action to help ease cost of living pressures.”

**Kristina Keneally**  
Premier of NSW

**Labor**

# Fairness for Families

“This isn’t just another promise. It will be the law.”

**Kristina Keneally**  
Premier of NSW

**Families are doing it tough. I know we need to do more to help ease the cost of living pressures families face.**

My fully costed, fully funded, 4 point *Fairness for Families Act* will help ease the financial pressure on families across NSW. That’s why I need your vote on Saturday 26 March to make this plan law.

### **1. Capping major fees and charges**

We will introduce a law capping increases in major fees and charges to the rate of inflation. **We will cap Stamp Duties, Land Tax, Motor Vehicle Taxes, Recreational Fishing Licenses, National Park Entry Fees, Drivers License Fees and Vehicle Registration Fees.**

### **2. Capping public transport fares**

In 2010, we ruled out any increase in public transport fares for 2011. Now we will ensure there are **no increases above the rate of inflation for the next 4 years.**

### **3. Keeping our water in public hands**

**We will not sell Sydney Water, Hunter Water or the State Water Corporation.** When the Liberal Government in South Australia privatised its urban water system, water bills skyrocketed by 59%! NSW families can’t afford that, so we will keep our water in public hands.

### **4. Providing a \$250 annual Energy Rebate**

Electricity prices are set to increase over the next few years and governments must take action to help families. That’s why **we will provide an Energy Rebate of \$250 a year** for all households earning up to \$150,000.

The detailed plan and what it means for your family is available at [www.fairnessforfamilies.com.au](http://www.fairnessforfamilies.com.au)
